PERFECT PAIRS / 01

METABO WEA

+ TYROLIT RONDELLER

A balanced grinder and the right disc for repeat weld dressing.

+

125mm A36 Rondeller · Studded working face

Balance the Grinder. Match the Disc.

Metabo WEA 17-125 Quick

The integrated Auto-Balancer counteracts disc imbalance. Metabo claims up to 50% less hand-arm vibration for the grinder.

Tyrolit Rondeller 125mm

The curved profile follows contours. The studded face helps clear swarf and keep grinding cooler on curved welds and edges.

Pick Your Voltage and Grit

Order Code	Component	Choose For
600534390	Metabo WEA 17-125 Quick	110V site supply
600534000	Metabo WEA 17-125 Quick	230–240V mains
57005	Steel / stainless · A24	Coarse weld dressing
908227	Steel / stainless · A36	General weld dressing and deburring
908229	Steel / stainless · A60	Finer blending and finishing
34300412	Non-ferrous · A36	Aluminium, copper, brass and bronze

Grinder: 1,700W, 11,000rpm no-load. Discs: 125 × 22.23mm. Use the specified grinder guard and flanges.

Control Vibration Exposure on the Job

Lower-vibration equipment and the right abrasive can help reduce exposure linked to HAVS and vibration white finger. The grinder claim is for the tool. Assess this pairing on the actual job and count trigger time across the shift.
