CIBO RCD Flap Discs

Finishing · Conical

Abrasive cloth cuts the weld while non-woven flaps blend the surrounding surface. Choose VF, ME or CO for controlled blending and UC or XC when the job needs more stock removal.

Conical face · Aluminium oxide · Glass fibre backing

Size / mount	Grit / grade	Max rpm	CIBO order code
115 × 22mm	Coarse	13,200	RCD/CO/115
115 × 22mm	Medium	13,200	RCD/ME/115
115 × 22mm	Very Fine	13,200	RCD/VF/115
115 × 22mm	Ultra Coarse	13,200	RCD/UC/115
115 × 22mm	Extra Coarse	13,200	RCD/XC/115
125 × 22mm	Coarse	12,200	RCD/CO/125
125 × 22mm	Medium	12,200	RCD/ME/125
125 × 22mm	Very Fine	12,200	RCD/VF/125
125 × 22mm	Ultra Coarse	12,200	RCD/UC/125
125 × 22mm	Extra Coarse	12,200	RCD/XC/125
180 × 22mm	Medium	8,500	RCD/ME/180
180 × 22mm	Extra Coarse	8,500	RCD/XC/180

CIBO lists 3,600–6,000rpm as a working range. Check the finish on a sample before production.
