KM9700P / AIRKEM P

Navishock

Clear grinding PAPR

Hard hat, clear grinding visor and powered particle filtration in one kit.

BUILT FOR GRINDING & SURFACE PREP

The clear visor gives a full view of the work. A belt-mounted Airkem P blower delivers filtered air to the headtop, and the hard hat has a six-point suspension.

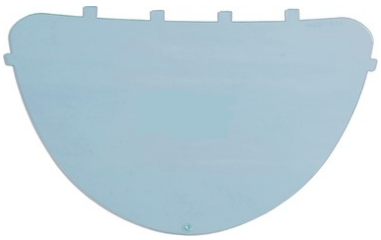

KIT SPECIFICATION	
Kit reference	KM9700P
Head protection	Navishock hard hat with clear grinding visor
Blower	Airkem P with digital display
Filtration	PRSL for solid and liquid particles
Respiratory classification	TH3, EN 12941:1998+A2:2008
Airflow	Four settings across 180–220 L/min
Standard battery runtime	9–10 hours, manufacturer stated
Alarms	Filter blockage and low battery
Hard-hat standard	EN 397:2012+A1:2012

The KM9700P is the clear grinding-visor version. Its standard PRSL filters are for particles. Select respiratory and eye protection for the task and follow the Weltek instructions.

Main spare parts

Quote the Weltek part number when ordering. The filtration parts below are for the Airkem P blower fitted to the KM9700P.

AX3415
Clear visor lens

PROTECTIVE FILM
Weltek range photo

CR7033
Navishock face seal

VISOR, FACE SEAL & HEADGEAR		PACK / OPTION
AX3415	Clear polycarbonate visor lens	Pack of 5
AX3423	Clear visor protective films	Pack of 10
CR7033	Navishock flame-retardant face seal	
KS9200	Navishock replacement headgear	
KS9350	Navishock hard hat with PAPR air duct and headgear	

AIRKEM P FILTERS & SERVICE PARTS		PACK / OPTION
KM2050	PRSL main particle filters	Pair
KM2060	Airkem pre-filters	Pack of 10
KM2080	Airkem spark arrestors	Pair
KM2100	Red Airkem filter covers	Pair

Airkem filter assembly

AIR DELIVERY, POWER & BELT		PACK / OPTION
CR7010	Air hose with connectors	
CR7012	Flame-retardant hose cover	
CR7020	Standard battery	
CR7021	Heavy-duty battery	
CR7023	International battery charger	Confirm plug
CR7001	Padded blower belt	

CR7010 hose with cover

CR7020 standard battery
